BSCS [1-A]

FINAL TERM PROJECT REPORT

**Submitted By
Bushra Masood**

PROJECT NAME

Linkedin website Frontend

Abstract

Actual meaning of the project topic "Linkedin"

1. linkedin is basically a social linking network which is specifically designed for career and business professionals to connect.
2. It is about building strategic relationships. You can be in friend zone with anyone and everyone.
3. Through it, we can send our content or any other information to the targeted group. The number of times our content was shown to the followers and members of LinkedIn company, the more good impression it becomes!

Need of this project

It is great need of today's society because of the job searching activities, for professional networking and growing of contacts. It is a powerful tool for finding and applying for jobs.

Hypothesis

We used hypertext markup language and cascading style sheets to produce this website page LinkedIn. Many types of tags are also used in this making of website like of header, footer, body, head, styles, titles, links and etc. They are written in the coding.

1. Introduction

Our project is LinkedIn website

LinkedIn is a professional networking site, designed to help people make business connections, share their experiences and resumes, and find jobs. It is a social network that focuses on professional networking and career development. You can use LinkedIn to display your resume, search for jobs, and enhance your professional reputation by posting updates and interacting with other people. LinkedIn is free, but a subscription version called LinkedIn Premium offers additional features like online classes and seminars, as well as insights into who's searching for and viewing your profile. They now have over 660 million people on the platform and that number is still growing which means nearly an unlimited supply of network connections and job opportunities.

LinkedIn is the largest professional network in the world. The site is a great fit for businesses, not only to promote themselves but to establish connections and build relationships. It is one of your most powerful professional tools. With it, you can build and maintain your network, search for jobs, and build your professional reputation. Plus it's free. , A complete LinkedIn profile can help you connect with opportunities by showcasing your unique professional story through experience, skills, and education. You can also use LinkedIn to organize offline events, join groups, write articles, post photos and videos, and more.

Job searches are filled with obstacles and challenges that can drain even the most resilient person's motivation and this is the reason that motivates us to make this website. The goal of the site is to allow registered members to establish and document networks of people they know and trust professionally .Moreover you can also learn the skills from LinkedIn and then find job on LinkedIn.

LinkedIn is an important part of being a full-fledged professional in any industry these days. LinkedIn is currently the most important career-oriented social media channel. During the Covid 19 situation this network helps to continue your profession online by seeking suitable job on LinkedIn. Thus LinkedIn helps a lot in advancement these days.

2. Website Name

- We choose **LinkedIn** website because LinkedIn is the world's largest professional network on the internet.
- You can use LinkedIn to find the right job or internship, connect and strengthen professional relationships, and learn the skills you need to succeed in your career.
- LinkedIn is an important part of being a full-fledged professional in any industry these days and because of its great importance we choose this website.

3. Methodology & Technologies Involved

Html and css is used to implement the project.

Html tags and attributes are used to make project. The css style sheet contains all formatting details of each object in the document.

We used tools like notepad++ and visual studios for this html and css coding.

LinkedIn

Open jobs. People hiring.

Job People Learning

Search job titles or companies

Location

Search jobs

Find Open jobs and internships

Learn how the skills you already have map to thousands of jobs with our new, interactive Career Explorer tool. When you enter your most recent job, we'll surface new job opportunities that could be a good fit and resources to help you make a career pivot. Update your profile status to "Open to Work" to let recruiters and your network know the type of jobs you are interested in. Create a social post with the hashtag #OpenToWork to get help from the broader LinkedIn community.

Explore opportunities

Connect with people
who can help

Find people you know

Learn the skill that
can help you know

Choose a topic to learn about

Who is linkedin for?

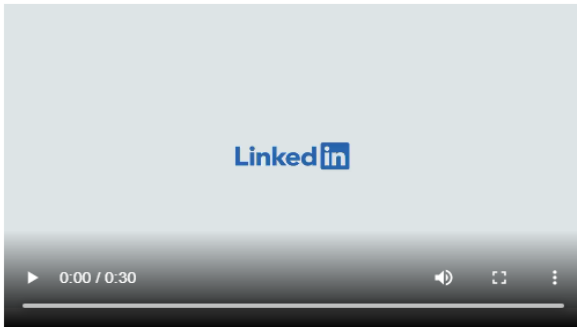

Anyone looking to navigate
their professional life

Find a coworker or classmate

Find a new job

Find a course or training

3 ways to find your job

Checkout these steps to help you get started

Join your colleagues, classmates and friends on linkedin
